### APPLICANT'S AFFIDAVIT

To the best of my knowledge, all information is filled out correctly and completely.

In addition, I have reviewed and I accept the North American Thoroughbred Society (NATBS) policy which determines non-breeding stock (geldings only) with partially legible tattoos as the only Proof Of Breed may be accorded NATBS membership. Realizing that: (1) Jockey Club papers are often withheld on purpose at the track so the horse isn't returned to the track; (2) it is NATBS policy that competitors who acquire their thoroughbred without papers should not be penalized; (3) the full process of a vet check, a NATBS Veterinarian Affidavit, NATBS Gelding History Form, and NATBS review of each individual case, may constitute the applicant's full acceptance into NATBS.

Data is generally accurate, but occasionally, errors and omissions occur as a result of incorrect data, mistakes in processing, or other causes. Organizations such as CADORA, Equine Canada, Federacion Ecuestre De Puerto Rico, FEI, United States Dressage Federation, United States Eventing Association, United States Equestrian Federation and North American Thoroughbred Society disclaims any and all responsibility to anyone for errors or omissions in the data and for the consequences, if any, of such errors. It is the applicant's responsibility to inform the applicable Information Resources Department of any corrections.

**COMPLETE THIS PAGE ONLY IF YOU HAVE NO PROOF OF BREED PAPERWORK**

If your gelding's only Proof Of Breed is a partially legible tattoo (no Jockey Club papers and no clear tattoo to obtain JC Tattoo Research), please fill out this page.

**INSTRUCTIONS FOR HARD-TO-READ TATTOO**

The Jockey Club suggests using a black light. If the character in question becomes readable, apply for Jockey Club Tattoo Research, Standard or Deluxe version. Please follow these steps:

(1) Have your vet use a black light. Stand horse in an area with no direct light, flip lip up, shine light on inside upper lip. (2) If you don't own a black light, ask your vet before hand to bring one (vets have black lights as standard equipment). (3) have vet write tattoo number in appropriate box on current Coggins. If character is still not completely legible, fill space with a question mark: M4?700.

IMPORTANT: If vet has written in any question marks, indicating tattoo is not completely legible, your horse must be of non-breeding stock (gelding only) to be considered for NATBS membership. Fill out the gelding's history below as you know it. Have vet fill out Vet Tattoo Affidavit For Geldings on this page and submit all to our registry along with the current Coggins. We deeply regret that we do not accept breeding stock (mares, stallions) without Jockey Club approved pedigree.

**GELDING HISTORY**

I, the owner, have outlined the gelding's history here to the best of my knowledge, including racetrack and trainer's name, previous owner(s) other owners and/or any rescue org(s) where horse resided:

**VET TATTOO AFFIDAVIT FOR GELDINGS**

I, the veterinarian, have reviewed this entire page and have (1) used a black light as recommended above, (2) determined to the best of my knowledge that this gelding is bearing an authentic Jockey Club tattoo that is not completely legible. The characteristics of this particular tattoo do not in any way appear peculiar, it does appear to have faded appropriately given the age and condition of the horse. I also have read the above and (3) see no discrepancy in the recording of Gelding History as known by owner, and (4) I have reviewed the current Coggins Test and find no discrepancy in physical characteristics or tattoo entry.

The tattoo appears as \_\_\_\_\_. Any unreadable numbers/letters have been indicated by a question mark.
